Robert Grigg

Smarter Cashflow Solutions

After years of soldiering on with the same mortgage protection insurance and instinctively knowing that I had made poor superannuation choices through inaction and lack of scrutiny, I knew the time had come to tackle all head-on.

Robert Grigg made a combination of solutions available that give me much greater insurance cover, a proper amalgamation of superannuation funds into one that performs the way I want it to perform and is saving me considerable money in the process.

It's also important to note that he explains them in a way that is easy to understand and with great patience for someone not attuned to the language and concepts such as myself.

I heartily endorse Rob to all friends, colleagues and fellow BNI chapter members.
